

## This is what Byggnads wants in the Entreprenadmaskinavtalet

- A wage increase of 4.2% and an increase in the extra pension contribution.
- Travel time compensation for longer daily commutes.
- Those who connect loads and give signals must have training for the task.
- Meal compensation when you work overtime.
- 11 hours of daily rest and paid rest if it affects the next work shift.
- Guaranteed weekend pay (helglön) when you work on a holiday.
- Extra money and earn work time reduction (ATF) when you take parental leave.

## This is what Maskinentreprenörerna want

- Remove the Per diem for weekends. This means 870 SEK less per week.
- Worse job security. Employers want to make more exceptions to the seniority rules during layoffs.
- Overtime cannot be paid in money. Saved comp time and vacation can only be taken as time off, and the employer decides when you can take it.
- Be able to rent you and your work to other companies.
- Bypass the union and work teams if you are to work nights.
